

# BluMine Health – Clinic Model Overview

---

## Employer Size & Scalability

- Minimum employer size: 25 employees.
- Typical employer partnerships range from 200 to 5,000 employees.
- BluMine's infrastructure is scalable to support populations exceeding 5,000 employees.

## Onsite Clinic Model

- Dedicated primary care clinic located within an employer's access drive time.
- Suited for employer populations seeking access and healthcare costs.
- Fully staffed with BluMine medical professionals.
- Direct access improves productivity and reduces time away from work.
- Customized care plans tailored to workforce needs.

## Near-Site Clinic Model

- Shared clinic serving multiple employers in a centralized location.
- Ideal for industrial parks and multi-tenant developments.
- Lower entry cost with scalable access to care.
- Convenient access within close proximity to worksites.
- Designed to improve retention and enhance employer benefits strategy.

## Strategic Impact

- Reduces overall healthcare spend.
- Improves employee engagement and productivity.
- Strengthens tenant retention for landlords.
- Supports long-term employer growth and stability.
