

BluMine Health

Onsite vs. Near-Site Clinic Models

BluMine Health delivers flexible primary care solutions designed for employers of all sizes. While most partnerships begin at 200+ employees, BluMine can support smaller organizations and even individual memberships when it aligns strategically.

Feature	Onsite Clinic	Near-Site Clinic
Best For	200+ employees (ideal)	Smaller teams, multi-location, or shared access
Flexibility	Custom built for employer	Scalable, shared model
Access	Dedicated to employees	Shared across employers

Choosing the Right Model

Onsite Clinic: Best for larger, centralized workforces looking for maximum control, access, and long-term impact.

Near-Site Clinic: Ideal for growing companies, distributed teams, or employers seeking flexible and scalable access.

Strategic Impact

- Reduce overall healthcare spend
- Improve employee retention and satisfaction
- Increase productivity and reduce time away from work
- Strengthen employer value proposition

Next Step: Schedule a consultation to determine the best model for your workforce.
